Preservation is fundamental to good public education and research in archaeology. This workshop is designed to assist participants in learning the best way to care for archaeological objects and associated documents (such as field notes, photographs and maps) so that these irreplaceable collections may be available for generations to come. The workshop will also discuss overall management, collections and disaster preparedness plans and will provide participants with examples of loan agreements and gift forms.

For a more detailed outline of the workshop, contact [susan.hawksworth@salina.org](mailto:susan.hawksworth@salina.org).

Looking at the economic forecasts for 2009 does not give one much optimism for the year ahead. Never fear though, Kansas museums have always been resourceful when it comes to stretching the almighty dollar. Together we can navigate this economic storm and emerge even stronger. With tips from outside experts and our combined knowledge, we will brainstorm resources to tap into during these struggling economic times.

Facilitated by:  
Susan Hawksworth, Smoky Hill Museum
